

Citations are required for all print and electronic sources. These are examples of the most common.

Citations – In Text

Author’s name in the main sentence; page number in parentheses

As Litterati asserts, the modern short story is often seen as a uniquely American phenomenon, due in part to the influence of Poe and Hawthorne (278).

Author’s name and page number in parentheses

What is missing from most adaptations of Austen’s novel is her critique of the economics of social interactions (Janist 27).

More than one author cited in the same parentheses

Several scholars have found that gothic novels romanticize vampirism (Lazarus 65; Kaine 86-89).

Several sources by the same author, name in main sentence

Jones has completed several studies on the evolution of the use of prepositions in literature (“Parts of Speech” 65-87; “Prepositions in Speech” 99).

Quotation

D’Artista notes that Kahlo’s paintings were often “personal narratives, similar to Mexican *retablos*, that told the story of her suffering, strength, and stoicism” (483).

Unknown author

Newspaper reports of the time described the event as “the most horrifying catastrophe ever to strike the people of London” (“Historic Disasters” 51).

No page number

Even after Galileo was condemned as a heretic by the Catholic church, his relationship with his daughter, a cloistered nun, remained close and supportive (Starsky).
